Re: City of Excelsior 2019 Street & Utility Improvement Project Schedule Change

Dear Property Owner/Resident:

At their meeting on October 7, the City Council of Excelsior has approved an updated construction schedule for the 2019 Street and Utility Improvement Project. Work currently occurring on Academy Avenue, Grant Street, Monroe Avenue, and Pleasant Street is scheduled to be completed by November of 2019.

Given the large amount of rain we have had this season and schedule delays caused by CenterPoint Energy's work which occurred prior to the City's infrastructure work, proposed work on Glencoe Road has been rescheduled to occur beginning April 2020, with an estimated completion date of July 2020.

As a reminder, scheduled improvements will include the replacement of roadways, watermain, storm sewer, and the placement of new sidewalks along Glencoe Road. The sanitary sewer main and services will be rehabilitated using cured-in-place pipe liners. CenterPoint Energy has already replaced the gas mains and services throughout the project limits.

In 2020, we will continue to utilize daily closure reports and weekly email updates using the email projectinfoEXCL@wsbeng.com. If you are not already subscribed to these emails, we highly recommend that you email the hotline or call the project hotline at **(952)737-4676** to receive the timeliest information and updates as they are made available. Project updates will also be posted on the City of Excelsior website, at www.excelsiormn.org.

Thank you so much for your patience and understanding as we strive to make improvements to our City's infrastructure.

Sincerely,

PeggySue Imihy
Project Communications Director
