MEMORANDUM

Work Session Item 3

Re: 2022 Objectives

Date: January 3, 2022

To: City Council

From: Kristi Luger, City Manager

Last year, the Council established their annual goals in February and then revisited them in June. With several of the items incomplete, staff is recommending that the Council not undertake the traditional goal setting process and instead refine their current list of objectives. Included in the packet is the fourth quarter overview of the City objectives. As a reminder, a color code is used to rate the quarterly progress made on each item:

- Red – progress on the item is at less than 25% and work has not started
- Orange – progress on the item is at 25%-49% and work has started
- Yellow – progress on the item is at 50%-75% and work is well underway
- Green – progress on the item is at 76%-99% and work is almost complete
- Gray – item has been completed

The Council should review their current list of objectives and determine whether any items should be added or removed. It would also be helpful if some of the objectives are clarified (particularly related to planning) so staff can ensure they are meeting the Council's expectations.

There are a couple items that were discussed in 2021 that were not added to the list of objectives. The Council should consider whether any of the following items should be added to the list of 2022 objectives, continued to 2023, or removed completely:

- Consider Creating an Art Walk
- Explore Forming a Business Development Commission (with the objective of being more proactive with recruiting businesses)
- Facilitate Access to Excelsior with Transportation Options (biking, ridesharing, public transit options, etc.)
- Preserve Existing Housing
 - Create a task force to study methods for encouraging property owners to preserve existing housing

- Regulate Short-Term Rentals
 - Evaluate other short-term rental ordinances and possibly create short-term rental regulations and license for Excelsior
 - Incorporate short-term rentals into future lodging tax
- Tobacco Free Excelsior
- NEW ITEM – Analyze Downtown Parking Strategy (with the theater looking to add a performing arts center and the city hall/west parking lot site being redeveloped, the Council may want to proactively address the upcoming parking needs related to redevelopment)

With the addition of the Assistant City Manager/City Attorney position, staff is in the process of creating a workplan which would outline the items that staff would like to accomplish during the tenure of this position. The items that the Council discusses during the work session will also be incorporated into the workplan. Once the plan is complete, it will be shared with the Council.
